Internship Program Admissions

Date Program Tables are updated: 8/25/2021

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

Regional Health Systems, a part of the Regional Care Group, provides affordable, quality mental health care, primary health care, addictions treatment and case management services to adults and children. We support our client's emotional, physical and intellectual well-being through whole person care. We are located within 45 minutes southeast of downtown Chicago in Northwest Indiana. The longstanding internship program (previously known as Southlake CMHC dba Regional CMHC) was created to be a generalist program whose goal is to provide clinical training in outpatient therapy and assessment with a diverse client population. In addition to the outpatient therapy and assessment, rotation experiences are available in a variety of departments and levels of care, with both mental health and substance abuse populations, adults and children, and in behavioral health at one of our Federally Qualified Health Clinics.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	Yes	No	Amount:500*
Total Direct Contact Assessment Hours	Yes	No	Amount:100*

Describe any other required minimum criteria used to screen applicants:

*The internship program at Regional will consider applicants who do not meet required direct contact hours and will review the application as a whole, considering goodness of fit with the internship and taking into consideration difficulties that may have resulted due to COVID 19 epidemic. Applicants are required to submit an example of a completed integrated test battery report in addition to the APPI. Applicants are recommended to have their Master's Degree in a psychology related field and must have their clinical research/dissertation proposal completed prior to beginning their internship.
